

LAWN EDGING

Aluminum Landscape Edging Featuring Positive Locking System

PRODUCT INTRODUCTION
CATALOG

About Us

BRILLIANCE METAL CO.,LTD, a comprehensive enterprise with wide business scopes covering investments, metal, equipment and energy industry.

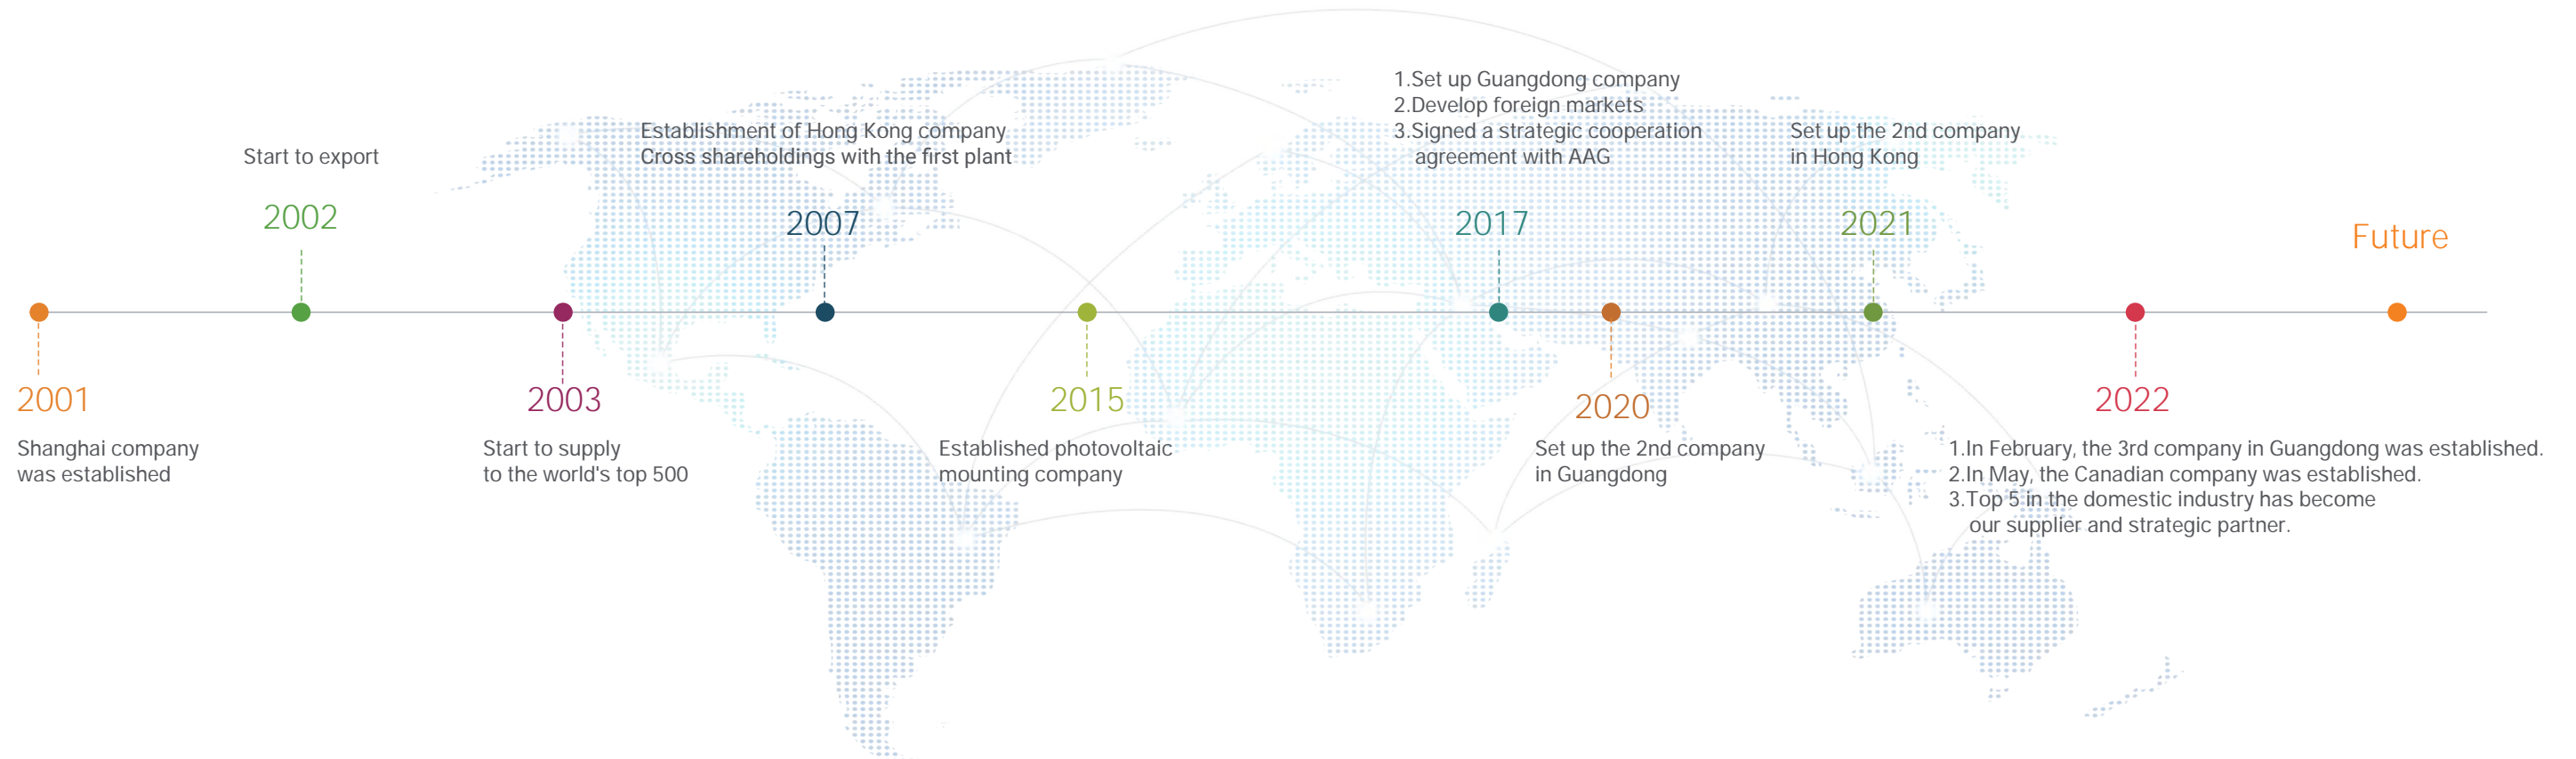

Our main products of export are:

1. Metal materials such as: OEM customized aluminum construction profiles, industrial profiles and decoration profiles, etc.
2. Semi-finished products such as CNC parts and other machining parts, etc.
3. Finished products such as doors and windows, fences, gutter guards, grass edging, ladders, etc.

Brilliance has our own invested factories and 7 branch companies. They are in Shanghai, Foshan, Guangzhou, Nanping, Wuxi, Hongkong, Vancouver, etc.

Experience and a commitment to excellence

Quality assurance, depend on our honor and certification

Certification

Manufacturing Process

Casting Furnace

Mould

Extrusion equipment

Temper

Anodizing

Powder Coating

Polishing & brushing

Machining Processing

Packing

20000⁺ tons

Extrusion presses are up to 20000 tons.

56⁺

extrusion lines.

3000T /months

Monthly output 3000T.

650mm

Sizes up to 650mm width.

WHY CHOSE ALUMINIUM EDGING?

THE EVOLUTION OF ALUMINIUM:

- **Durable:** Create a high quality finish, lasting up to 30 years.
- **Maintenance Free:** Save hours of maintenance work on maintaining crisp garden edges.
- **Light weight:** save radically on your installation time and costs.
- **Flexible:** Enables clever designs, with sharp curves or neat straight lines.
- **Simple installation:** Sections slide together due to telescopic design, or flush joiners
- **Safe:** Rounded tops with no sharp edgings, making it safe for children

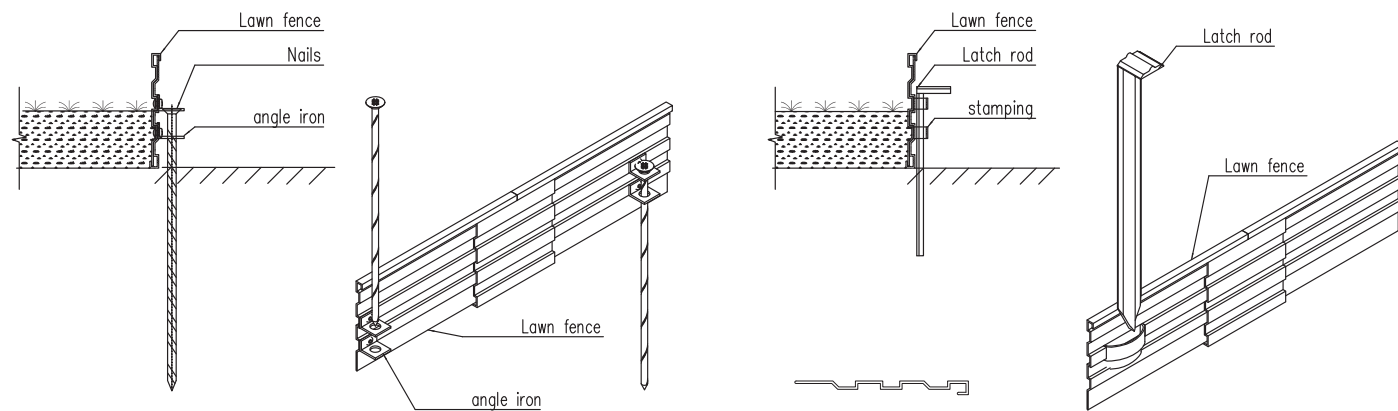

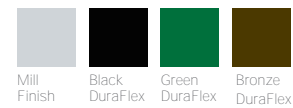

RITE EDGE SUPERIOR
ALUMINIUM LANDSCAPE
EDGINGS

PRODUCT DESCRIPTION

Mode: **BS-CP100-01**

Customizable color

Professional landscape designs as the obvious edge for lawns, borders, beds and pathways alike, keeping that pristine neat garden appearance with perfect straight, corners and enviable curves and shapes.

SUITABLE APPLICATIONS:

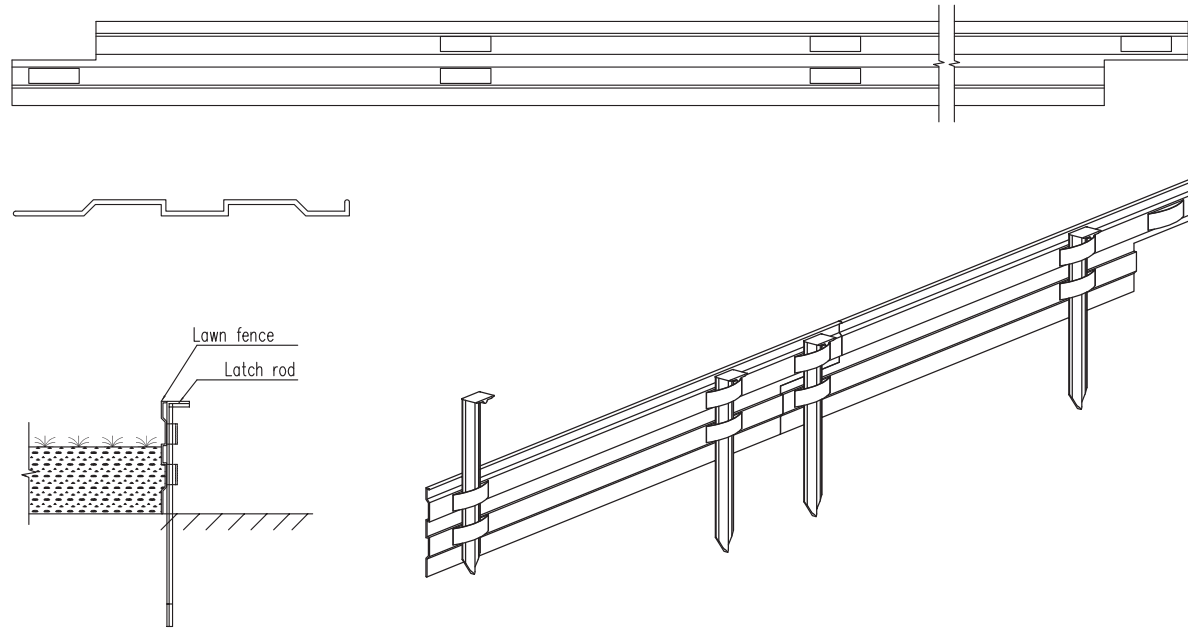

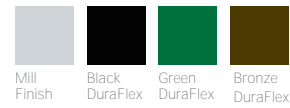

- Artificial Grass
- Tree Circle
- Flower Bed
- Landscape Bed
- Maintenance Strip

PRODUCT DESCRIPTION

Mode: **BS-CP100/140-02**

Customizable color

Professional landscape designs as the obvious edge for lawns, borders, beds and pathways alike, keeping that pristine neat garden appearance with perfect straight, corners and enviable curves and shapes.

SUITABLE APPLICATIONS:

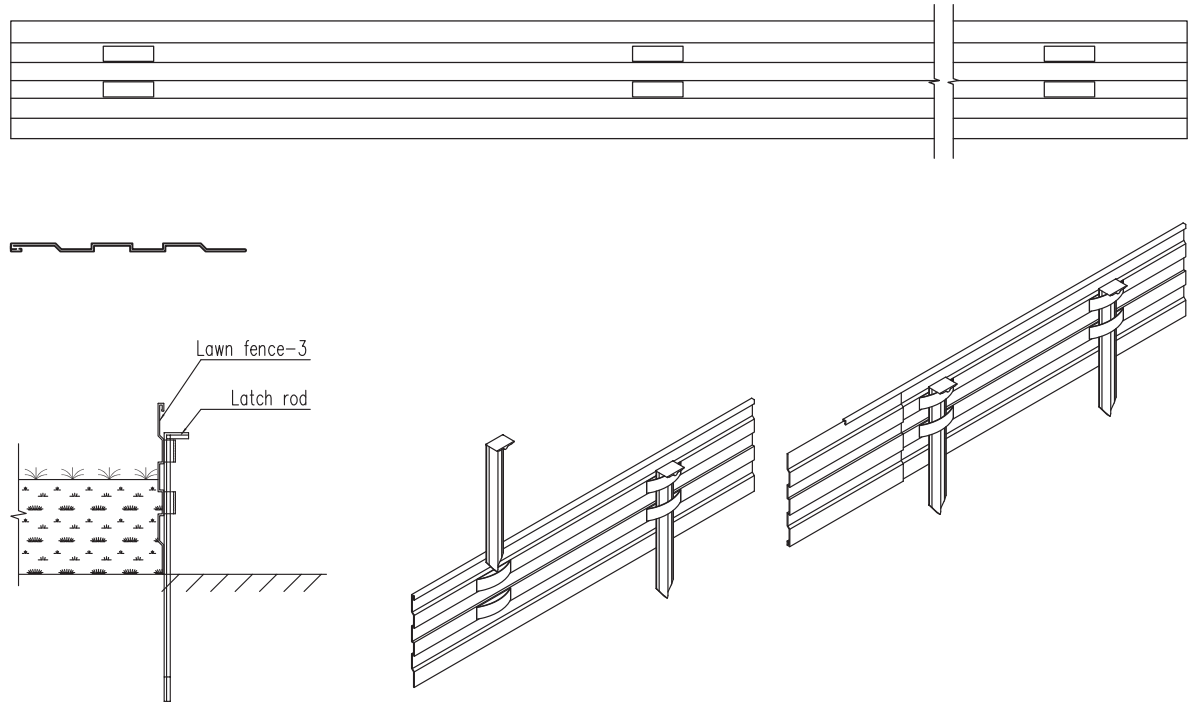

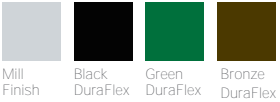

- Artificial Grass

PRODUCT DESCRIPTION

Mode: **BS-CP100/140-03**

Customizable color

Professional landscape designs as the obvious edge for lawns, borders, beds and pathways alike, keeping that pristine neat garden appearance with perfect straight, corners and enviable curves and shapes.

SUITABLE APPLICATIONS:

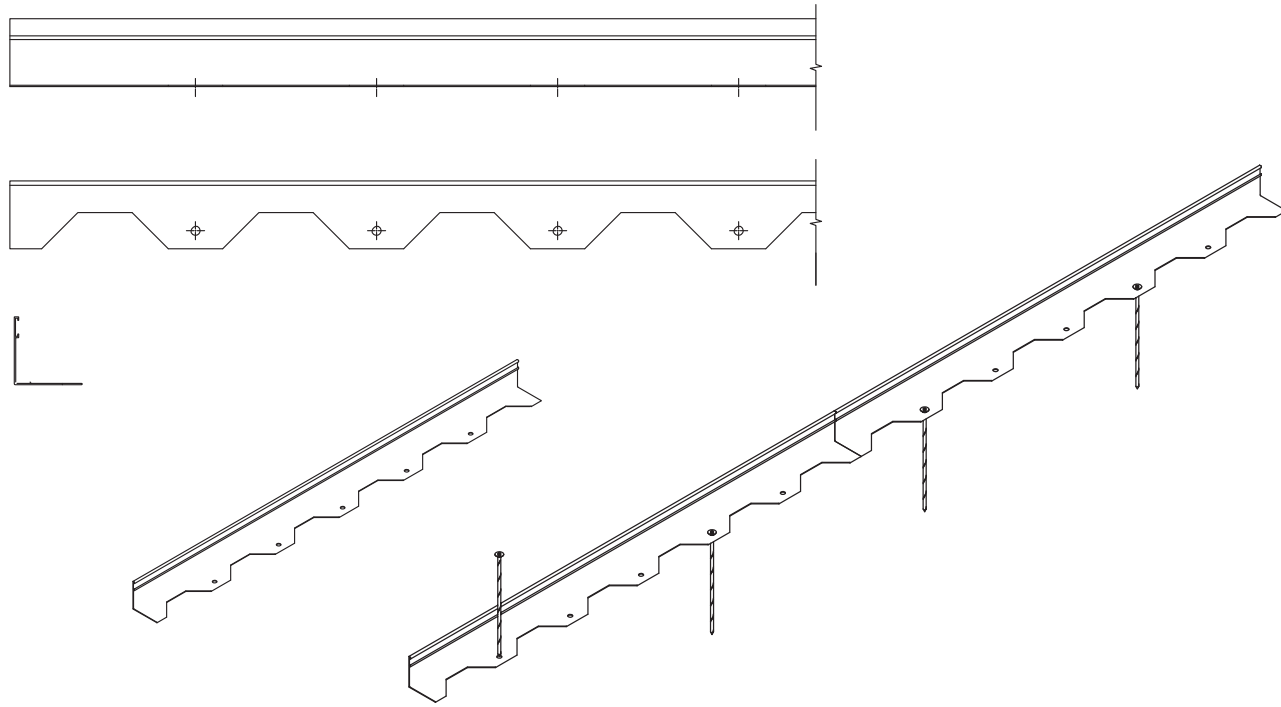

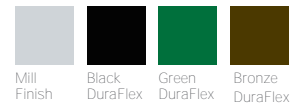

- Artificial Grass
- Tree Circle
- Flower Bed
- Landscape Bed
- Maintenance Strip

PRODUCT DESCRIPTION

Mode: **BS-CP75-08**

Customizable color

Heavy-duty "L" cross-section extruded from durable aluminum 6063 alloy, due to its versatility, strength, installation speed and cost-effectiveness, it is the standard setters and contractors in the metal landscape edge of

SUITABLE APPLICATIONS:

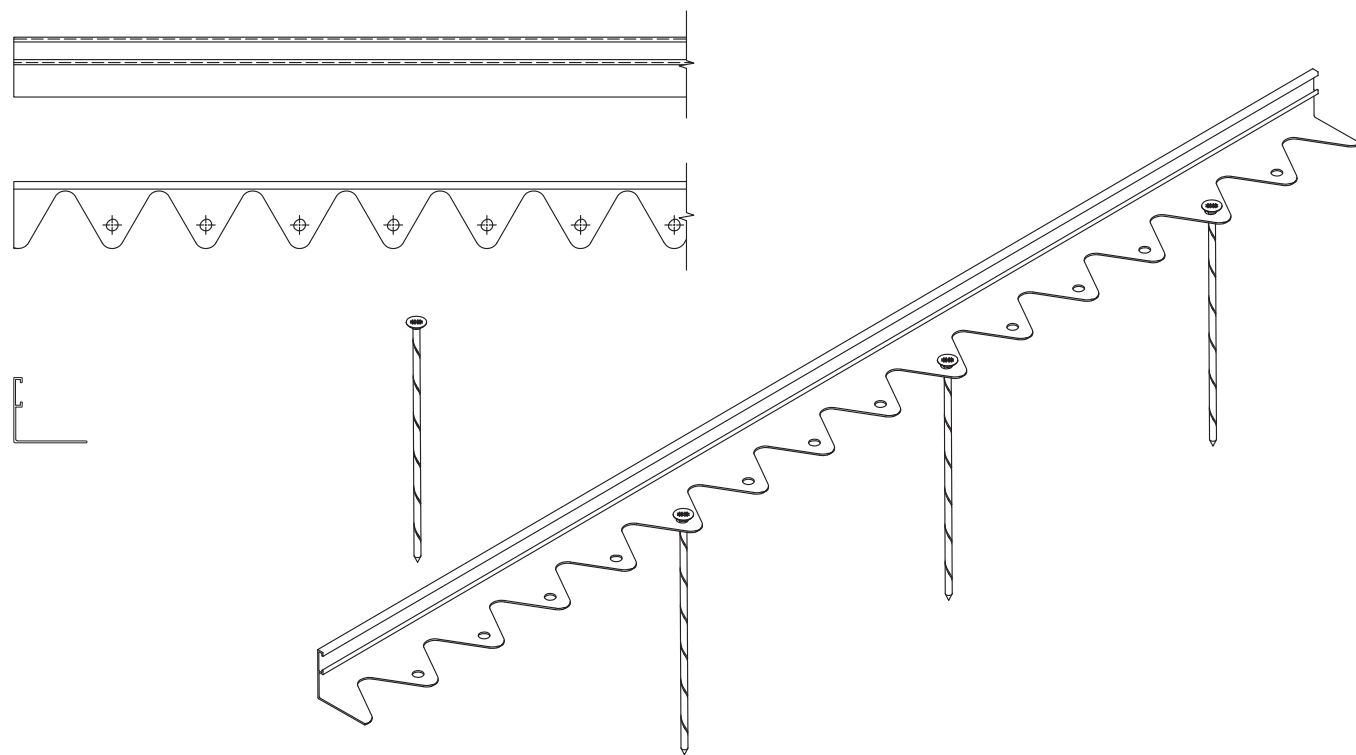

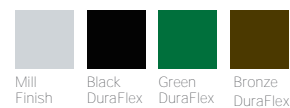

- Asphalt Surfaces
- Aggregate Walkway
- Resin Bonded
- Safety Bound
- Brick Paver
- Green Roof

PRODUCT DESCRIPTION

Mode: **BS-CP51-09**

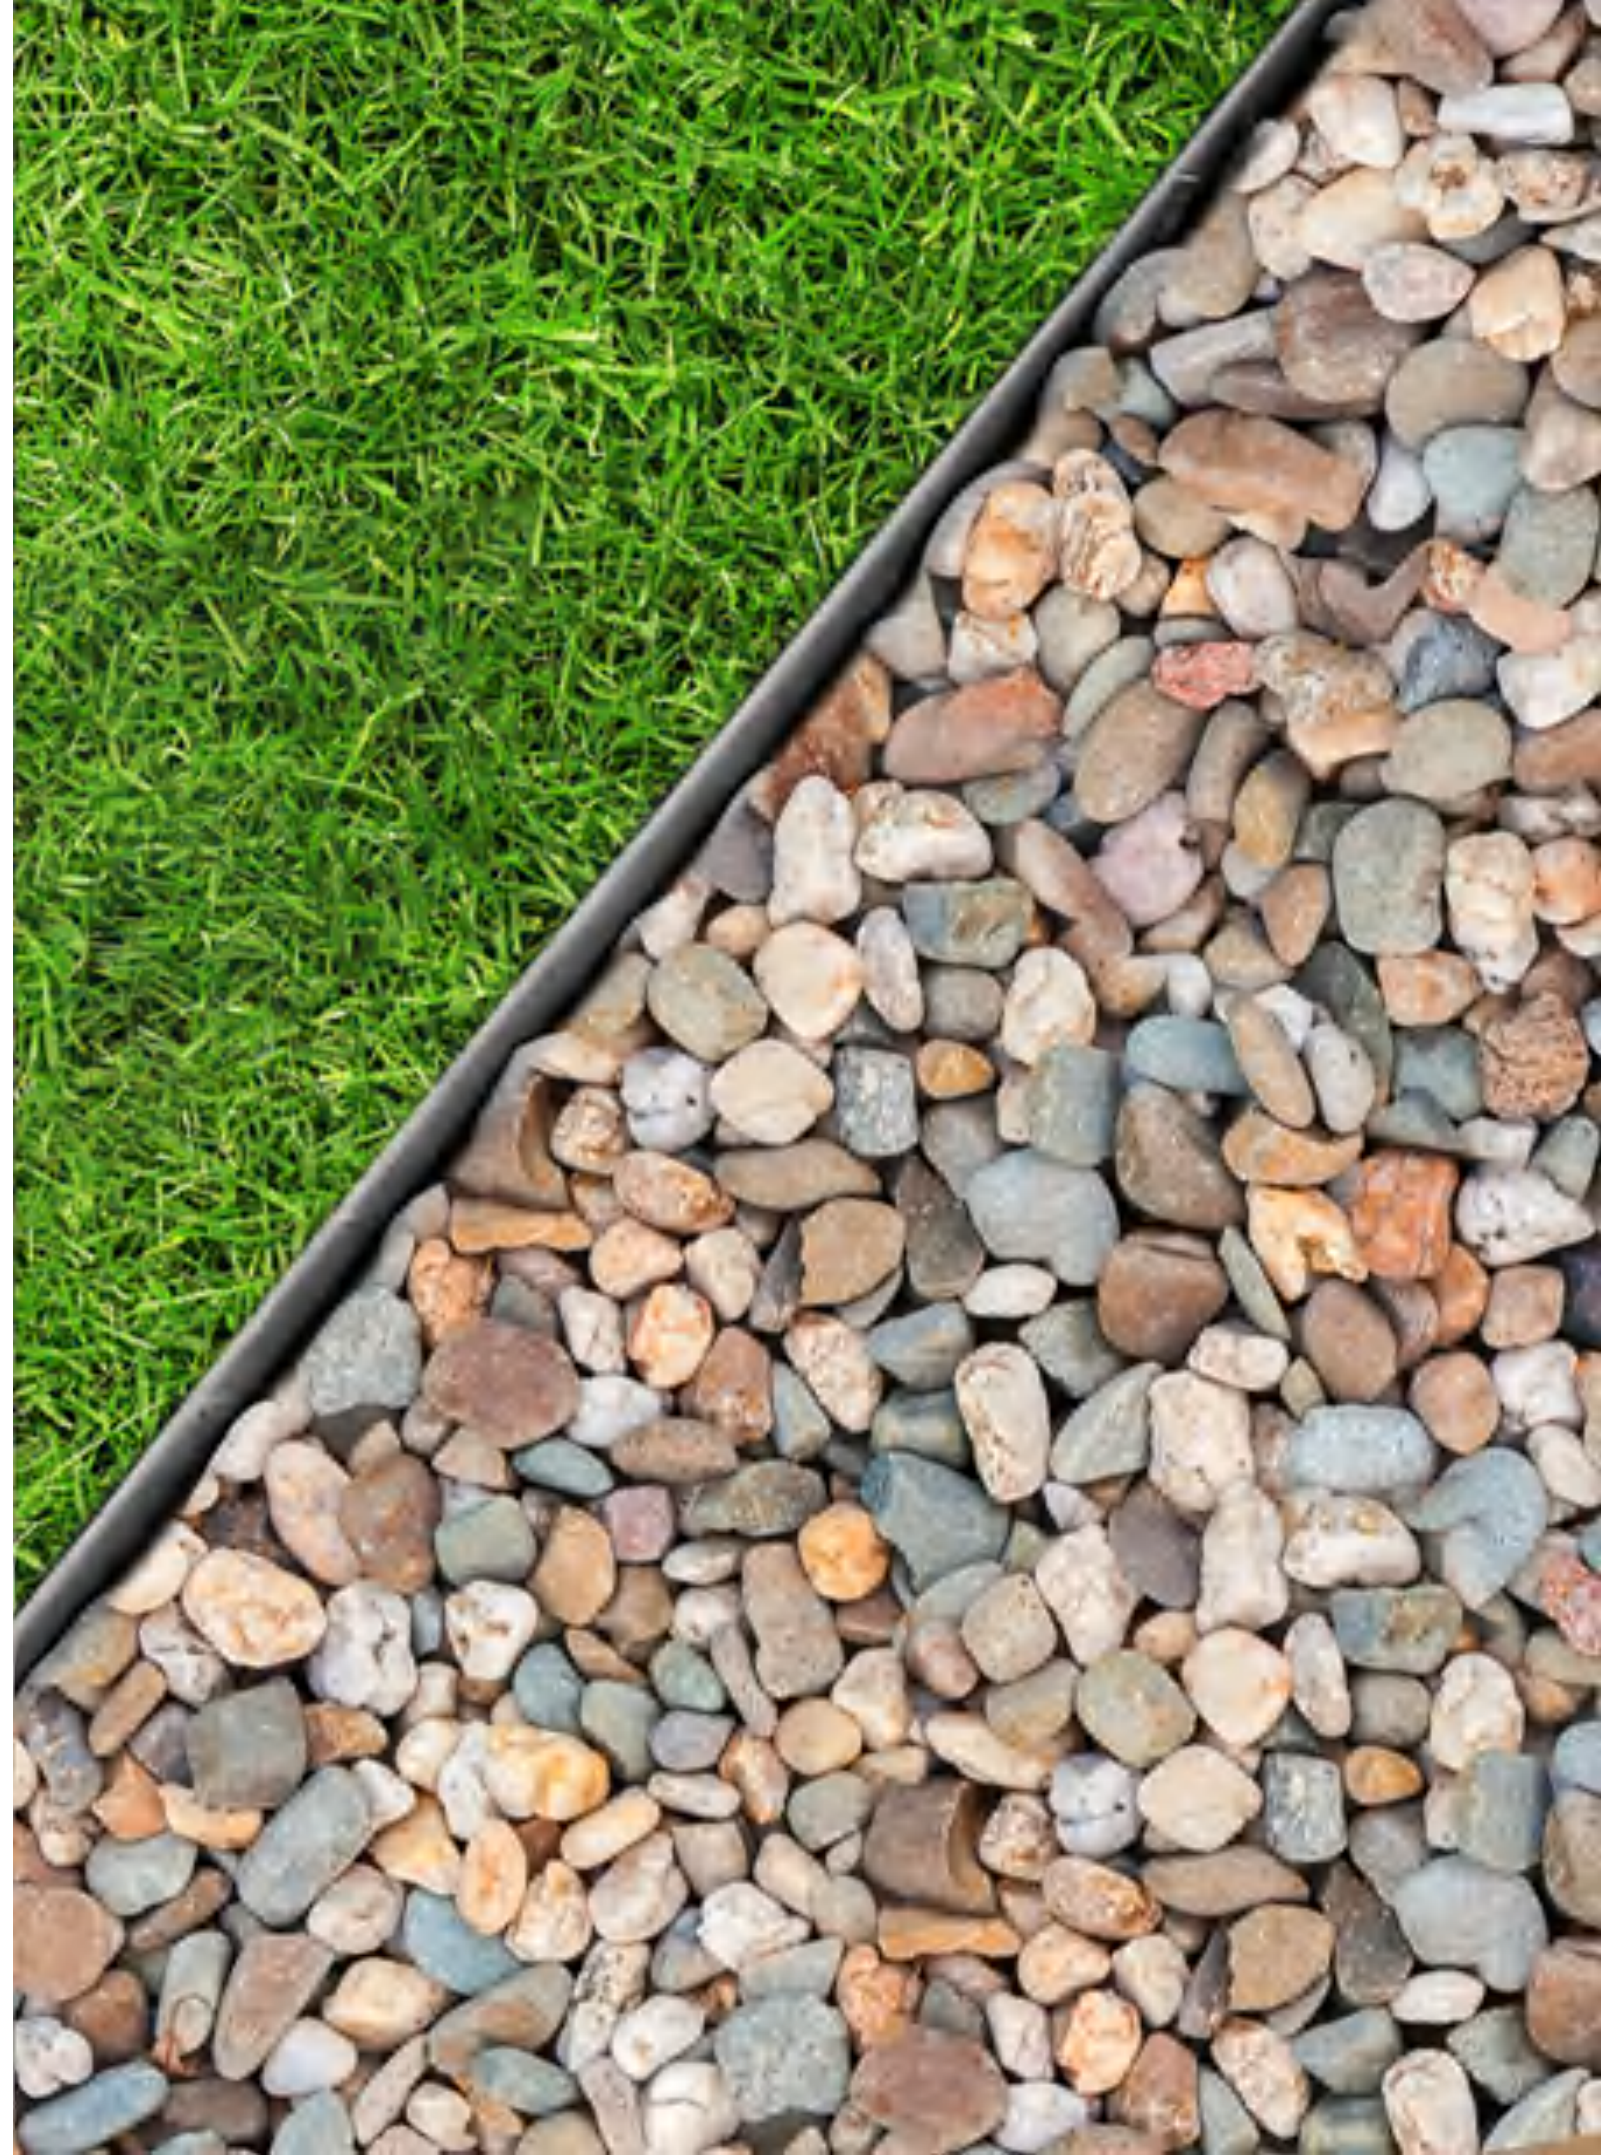

Customizable color

Heavy-duty "L" cross-section extruded from durable aluminum 6063 alloy, due to its versatility, strength, installation speed and cost-effectiveness, it is the standard setters and contractors in the metal landscape edge of

SUITABLE APPLICATIONS:

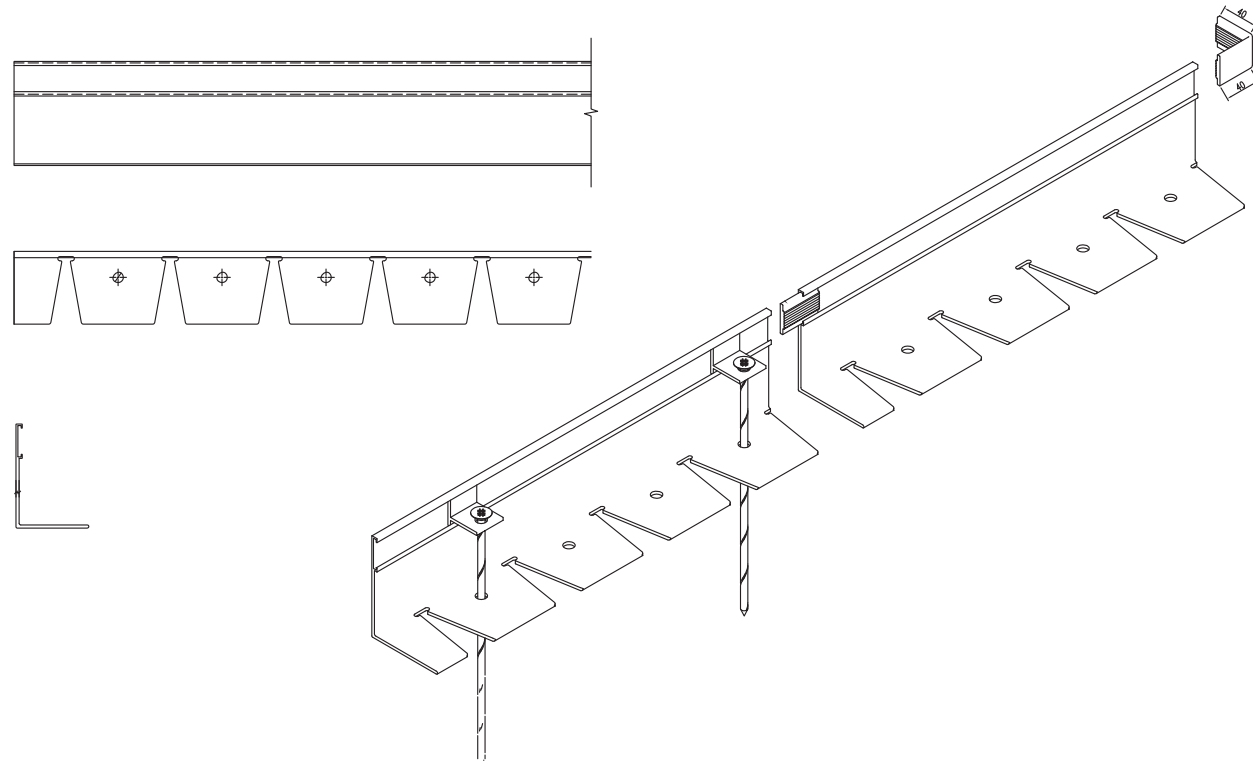

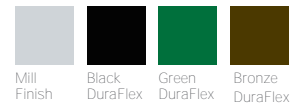

- Asphalt Surfaces
- Aggregate Walkway
- Resin Bonded
- Safety Bound
- Brick Paver
- Green Roof

PRODUCT DESCRIPTION

Mode: **BS-CP75/100-10**

Customizable color
