

# GUTTER GUARD

MATERIALS THAT STAND THE TEST OF TIME

PRODUCT INTRODUCTION  
CATALOG

# About Us

BRILLIANCE METAL CO.,LTD, a comprehensive enterprise with wide business scopes covering investments, metal, equipment and energy industry.

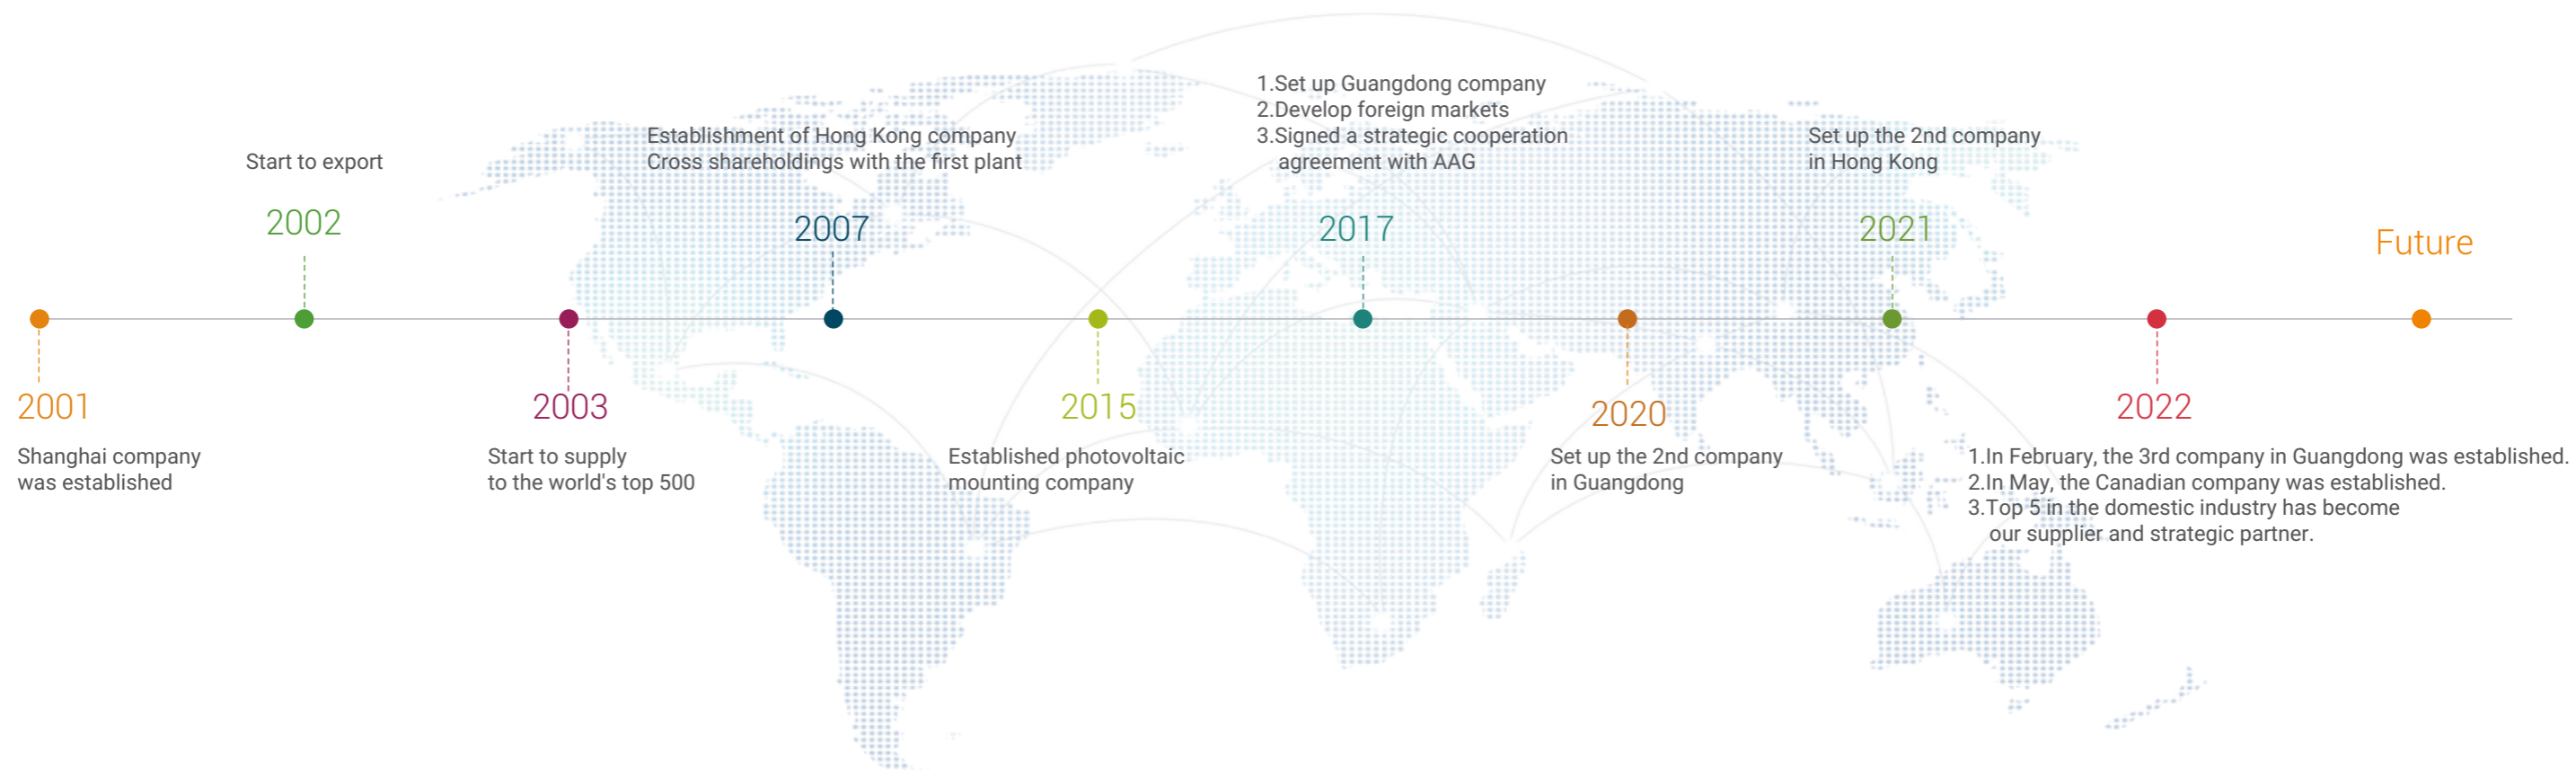

Our main products of export are

1. Metal materials such as: OEM customized aluminum construction profiles, industrial profiles and decoration profiles, etc.
2. Semi-finished products such as CNC parts and other machining parts, etc.
3. Finished products such as doors and windows, fences, gutter guards, grass edging, ladders, etc.

Brilliance has our own invested factories and 7 service companies. They are in Shanghai, Foshan, Guangzhou, Nanping, Wuxi, Hongkong, Vancouver, etc.

# Experience and a commitment to excellence

Quality assurance, depend on our honor and certification

## Certification

# Manufacturing Process

Casting Furnace

Mould

Extrusion equipment

Temper

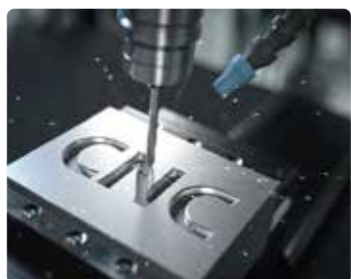

Anodizing

Powder Coating

Polishing & brushing

Machining Processing

Packing

**20000<sup>+</sup> tons**

Extrusion presses are up to 20000 tons.

**56<sup>+</sup>**

extrusion lines.

**3000T /months**

Monthly output 3000T.

**650mm**

Sizes up to 650mm width.

# How Gutter Guard Can Protect Your Home ?

## Roofing Damage

Gutter guards prevent gutters from clogging, so rainwater and debris do not build-up and cause roof damage interior leaks.

## Fascia Damage

If your gutters are clogged, water will build up inside and can cause serious damage to the fascia board of your home.

## Basement Flooding

Clogged Gutters can cause excess water to pool up around the home and seep into the basement causing extensive damage.

## Foundation Damage

Clogged Gutters will prevent the water from being directed away from the home causing soil erosion and possible foundation damage.

# GUTTER GUARD

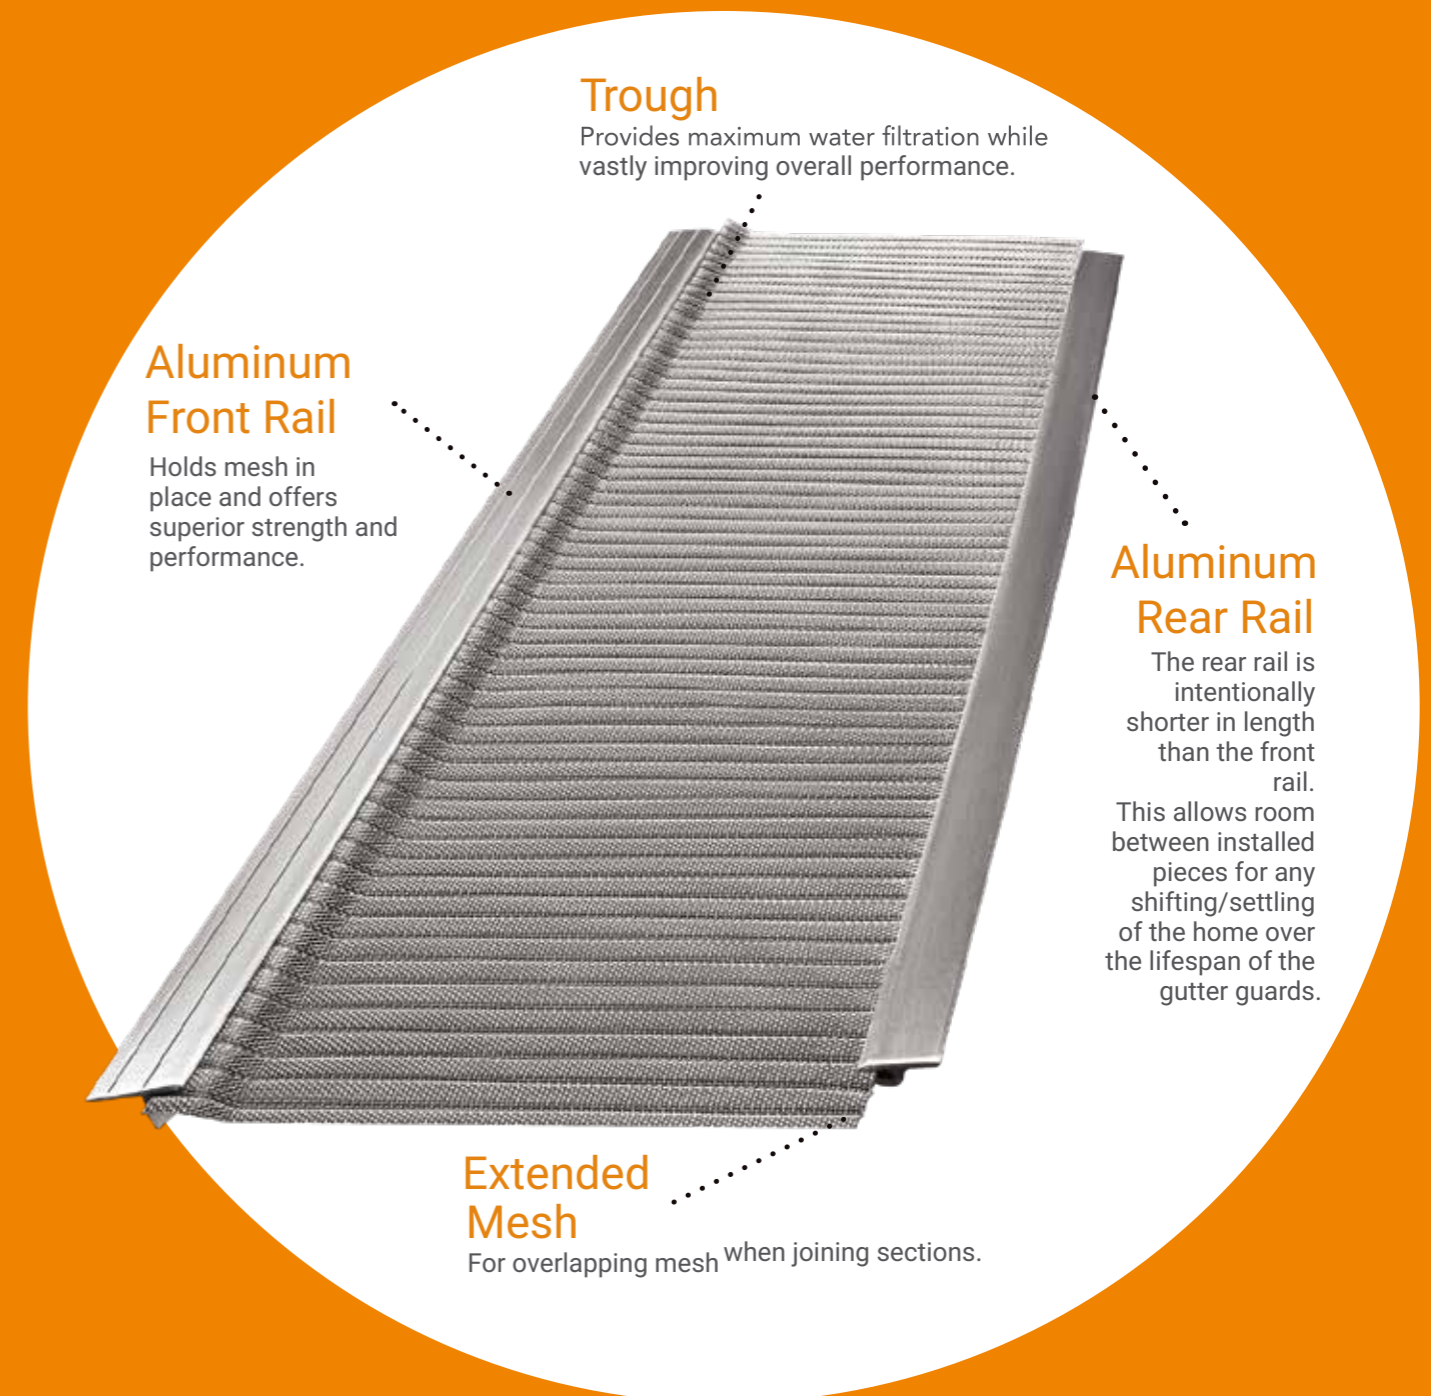

# Best Gutter Guard Solution on the Market

Gutter Guard is the strongest gutter protection on the market and is designed with homeowners and home-builders in mind. Superior gutter guard products are expertly engineered and manufactured using only the highest quality materials for strength, durability and longevity.

## Materials That Stand the Test of Time

Our aluminum and stainless steel materials withstand the elements year after year and won't warp, crack, or rust.
